June 28, 2021

The Honorable Todd Rokita
Attorney General
Indiana Statehouse
200 W. Washington St.
Indianapolis, IN 46204

Dear Attorney General Rokita:

We write today to ask you to expedite the ongoing investigation into the Lakeside Pointe at Nora apartment complex in order to file for injunctive relief and place the apartment under receivership. Our ultimate goal is not state ownership of this property, rather the shifting of ownership from one private owner to another private owner with the reputation and credentials to keep the property operational and our constituents safe.

We appreciate the involvement of your office and Mr. Haller in communications with state, city, corporate, and community leaders as we seek to protect the over **400 households** in Lakeside Pointe. Our ongoing discussions have been productive and we hope to continue working through this matter with Citizens Energy Group, your office, and all invested parties.

We understand this is a complex matter and your work must be thorough, but we ask for any and all measures be taken to expedite this process to provide continued housing security for all of our constituents involved.

Sincerely,

Fady Qaddoura
Indiana State Senator
Senate District 30

Carey Hamilton
Indiana State Representative
House District 87
